

## **Systems/Service Engineer in Germany (permanent contract)**

Do you want to take a challenging position in a unique company?

Are you flexible to travel the world and work in international teams?

Are you interested to learn and become a specialist in one of the most exciting and most advanced technical environments?

Xelvin Deutschland GmbH is a young and innovative company in the field of technical services located in Germany and the Netherlands. With over 650 Engineers we fulfill innovative and exciting technical challenges.

With 35 different nationalities we are a very international and open-minded organization.

We strongly believe that our success comes from making our people successful.

We are offering permanent indefinite German employment contracts for international engineers.

Your requirements:

- Engineering Degree (mechanical engineering, electrical engineering or similar education with technical focus)
- Proficiency in English written and spoken
- Flexibility to travel around the world and work in an international environment
- Team Player
- Willingness to learn (a lot...)

Job description

- Intensive training and educational period on the technology and infrastructure
- Training on the job on first missions
- Teamwork in highly trained international teams on international service missions
- Worldwide technical support for high-tech Laser machines
- Collaboration with our business partners worldwide and install high-tech equipment safe and efficiently
- Troubleshooting and working solution oriented in a team
- Responsible position as an international service or systems engineer
- Continuous training
- Very challenging job as it requires flexibility for 100% travelling and shift work

What we offer:

- Full service application process
- 100% employer incl. contract, salary, etc.
